

Roger Weld Joins Thornton Tomasetti as Vice President in Transportation Practice

(New York, NY – January 24, 2025) – Roger Weld, who has more than 30 years of experience in the planning and design of infrastructure and public spaces, has joined Thornton Tomasetti’s Transportation practice in New York. As team leader for the civil engineering group, Weld is responsible for both new projects and modernization programs involving highways, streetscapes, public plazas, transit hubs and utility systems.

He has a bachelor’s degree in civil engineering and a master’s degree in business administration, both from the University at Buffalo. He is a licensed professional engineer and a member of the Transportation Research Board, American Society of Civil Engineers, Project Management Institute and the Institute of Transportation Engineers. Weld spent most of his career working for the New York City and State departments of transportation. He previously was chief engineer for the NYCDOT Transportation Planning and Management Division.
