Simone Development Companies Announces Opening *FND Warriors, the Fall/Winter Exhibit at The Gallery of ARTful Medicine*

Bronx artist Marisol Díaz-Gordon sheds light on Functional Neurological Disorder through multidisciplinary work

BRONX, NY (October 17, 2025) – [Simone Development Companies](#) announced the opening of *FND Warriors*, the new Fall/Winter exhibit at [The Gallery of ARTful Medicine](#), located in the lobby of Simone Development’s Hutchinson Metro Center’s Tower One at 1250 Waters Place in the Bronx. The exhibition, featuring work by Bronx artist Marisol Díaz-Gordon, is open to the public with viewing hours Monday through Friday from 9 a.m. to 5 p.m. The exhibit is on view through January 9, 2026.

FND Warriors explores the complexities of Functional Neurological Disorder (FND) through a dynamic blend of photography, printmaking, animation, video, and personal testimonials. The exhibition draws deeply from Díaz-Gordon’s lived experiences with FND, a neurological condition that manifests in symptoms such as functional seizures, dizziness, and chronic pain that affects thousands worldwide.

The exhibition incorporates animations from neurosymptoms.org and fndhope.org, a video interview with Jonathan Gursky, MD, Associate Professor of Neurology at Montefiore Einstein, as well as

testimonials from individuals in the United States and the United Kingdom. By combining scientific resources, medical expertise, and personal stories, Díaz-Gordon's work seeks to illuminate the often misunderstood and underrepresented condition.

"FND Warriors is a call to action for those affected by FND and their loved ones," said Marisol Díaz-Gordon. "Through art, I want to raise awareness and build compassion for those navigating this condition and, in the process, ensure no one suffers in shame or isolation."

"The Gallery of ARTful medicine encourages artists to interpret scientific and medical research to create works that explore issues of cultural, political, and technological importance," said Jodi Moise, director of the Fine Arts Program and Collection at Montefiore Einstein. "This exhibition exemplifies how art can teach, communicate, and inspire, especially in healthcare settings where it can foster understanding and healing."

Díaz-Gordon, a Bronx-born Puerto Rican artist, works across mediums in photography, printmaking, video, and film. A three-time BRIO award recipient from the Bronx Council on the Arts, she has exhibited at institutions including the National Puerto Rican Diaspora Museum, El Taller Boricua Gallery, and Lehman College Art Gallery. Her work is held in the permanent collection of the George Eastman Museum, and she currently teaches photography at CUNY.

This exhibit is sponsored by The Fine Art Program and Collection at Montefiore | Einstein, Bloomberg Philanthropies, and Simone Development Companies, with special thanks to Professor Jon Stone at neurosymptoms.org and Robert Wilson, Co-chair, Director, FND Hope International. Montefiore's Fine Art Program and Collection at Montefiore Einstein is featured on the [Bloomberg Connects](#) app. For more information on the latest Gallery of ARTful Medicine exhibit visit: www.montefiore.org/artprogram.

About Simone Development Companies
