

**For Immediate Release**

## **JT Magen Builds Out New Office Space in Austin for BRR Architecture**

**(Austin, TX – November 19, 2025)** – [JT Magen](#), a national construction firm specializing in preconstruction, construction management, design-build, and general contracting across a variety of industries, announces the completion of a new office space for [BRR Architecture](#) at 3218 Manor Road in Austin, Texas.

JT Magen served as construction manager for the 4,117-square-foot buildout, overseeing all aspects from budgeting and scheduling, procurement of materials, managing subcontractors and conducting the final handover. JT Magen collaborated with the rest of the project team – architect / interior designer BRR Architecture and MEP engineer Salas O’Brien – to deliver a functional, collaborative space that met BRR Architecture’s needs.

“We enjoyed partnering with BRR Architecture to build out its new Austin office space,” said Dan Longshore, Southwest Regional Director at JT Magen. “It was a unique experience working with the architect, who, in this case, is also the tenant, the result being a welcoming work environment that supports productivity and collaboration.”

BRR Architecture is a national architectural design firm with more than 60 years of experience

designing spaces that elevate the everyday experience. The company collaborates with clients across multiple sectors, including retail, hospitality, industrial, mixed-use, multifamily, and office environments. BRR opened their Austin office in 2016. After almost a decade, the firm was ready to expand into a larger space to accommodate its growing team.

The open plan office space spans one floor of the building and features a mix of workstations and private offices, a flex room, a plot room for large-scale drawings, meeting and conference rooms, and a breakroom. A custom hand-painted mural that blends community and office culture and a full kitchen breakroom make the space inviting and unique.

“We’re thrilled to move into a larger, purpose-built space that reflects both our culture and our growth here in Austin,” said Ryan Rosche, Vice President and Austin office leader at BRR Architecture. “JT Magen was an exceptional partner throughout the process, pulling a few rabbits out of their hat when faced with challenges along the way. They listened to our needs and delivered a space that not only supports how our team works today but also gives us room to grow and continue serving our clients for years to come.”

JT Magen's recent projects in the Texas region include Uniqlo retail stores in Arlington, Dallas, Houston and Sugar Land, renovations at University of St. Augustine for Health Sciences, and office fitouts for J.B. Goodwin Realtors, OakPoint, and Owlchemy Labs.

### **About JT Magen**

JT Magen has been recognized as a premier construction firm for more than 30 years, setting standards in the industry with a commitment to excellence and a reputation for quality. Offering a comprehensive range of services including preconstruction, construction management, design-build, and general contracting, JT Magen specializes in a diverse range of industries including broadcast & studio, financial services, healthcare, hospitality, law firms, mission-critical facilities, non-profit organizations, residential spaces, retail establishments, and technology, media, and information (TAMI) clients.
